e-mail: rh@autoint.com

You could be missing a big opportunity in the growing car-care products industry. But to ensure success, you should partner with a supplier approved, and used, by the biggest car-makers in the world.

That company is Automotive International (AI), makers of ValuGard car-care products.

“With the large cost of a vehicle, protecting that investment becomes a critical concern,” said Rick Hallberg, president of AI. “Increasing a vehicle's performance life and caring for its appearance have become big business.”

AI offers some unique benefits, including:

- Superior Product developed for the most demanding customers in the world – the auto makers – including GM, Ford, DaimlerChrysler, Toyota, Mazda, Hyundai, Nissan, Renault, Saturn, Saab and more
- Personal Attention from senior management in a privately held company
- Comprehensive Technical Support, sales training and marketing materials from a pioneer in the development of new products and new markets

“If you're searching for a new opportunity, car-care products should be high on your list,” added Hallberg. “And when you decide to talk to a supplier, make it Automotive International.”

For more information, call or e-mail Rick Hallberg. Or visit booth #12855 at the 2004 SEMA Show USA.
